Swapping the Tariff for Oregon.

A very extraordinary proposition appears in a Intenumber of the Washington Union, Mr. Polk's official organ. It is, to be sure, put forth in the shape of a letter from London, and as a sort of "feeler" for the public pulse; but the Union evidently regards the suggestion with favor. The proposition is, to buy England's consent to our occupation of Oregon, by the abandonment of the Tariff. England, it is affirmed, will give up all claim upon Oregon, provided the U. S. witl relinquish the Protective Policy. In other words, if we will allow England to shape our revenue laws so as to suit herself, she will suffer us to take what is our own! How far the Union's endersement of this notable project commits the Administration and the Party to its support, we have no means of tertain no doubt when I tell you that Sterenson, knowing. But assuredly we hope that no such traffic will be attempted, or if attempted, that the People will visit it and its authors with their emphatic condemnation. If, as we believe, our right and title to Oregon is clear and anquestionable, it would be neither seemly nor just that we should seek to buy off the British claim. The mere offer to do so would be imputed by the English Government to a consciousness of the injustice of our own claim, or a sense of our inability to enforce it .-England, indeed, might well be willing to give up all pretensions to the few thousand acres of land in dispute in Oregon, for the sake of securing a momopely of the American markets. It would be the exchange of a doubtful claim for a valuable consideration. The possession of Oregon can never be very important to England, but it would be a great matter for her Manam oth Manufacturers could they rid themselves of American competition by the destruction of the Protective Tariff. This scheme of acquiring Oregon by the aban-

donment of the Tariff will doubtless find favor at the South. The politicians there were in hot hate to annex Texas, even at the risk of a foreign war. But they have no stomuch for a fight when Oregon is in question. Having secured Texas their ery now is, Peace, Peace. And in order to stop the mouth of the British Lion they would offer him a son in the shape of the Whig Tariff. We certainly should be the last to urge our Government to go to war for the sake of enforcing our claim to Oregon so long as there is any hope of settling the controversy by means more congenial to the spirit of the age. We deprecate war as one of the worst calamities which can befal a nation. Humanity shudders at the contemplation of such countries as Great Britain and the United States would bring in its train. Especially would it press with peculiar severity upon our own section of the Union. We have everything to hope from a continuance of the existing relations between the old and new Worlds. We have nothing to gain from War. Nor should we be unwilling to make nov reasonable concession, not inconsisquid pro que for Englan l's relinquishment of her and at far too costly a price. Better to pay at certainly, from the Editor's pen, but one much fair equivalent for her alleged title, than thus to consent, in effect, to submit our revenue laws and commercial legislation, for all time to come, to the revision of the British Parliament. We might as well dissolve the Union, abolish our existing Institutions, strike our free flag, and become again, in name, as in fact, mere colonies of the Mother Country.

Federal Beccipts and Expenditures.

A report recently prepared in the Treasury Department at Washington exhibits the amount of the receipts and expenditures of our Govarnment from the date of its birth, 4th March, 1789, to the 30th June, 1844. The total receipts and the several sources of revenue were as follows:

Customs,	\$812,828,812
Internal Revenue,	22,270,879
Direct Taxes,	12,744,737
Postage,	1,092,927
Public Lands,	114,973,406
Dividends and sales of Stocks,	21,599,659
Miscellaneous,	21,004,282
Loans and Treasury Notes,	924 235,59 2

Total Receipts, The expenditures during the same period are stated to have been these:

tea to mare been mesor	
Civil List,	\$63,855,521
Foreign Intercourse,	36,166,878
Miscellaneous,	64,107,720
Military Service,	286,998,357
Pensions,	54.012,481
Indian Department,	42,503,488
Navy.	179,933,124
Public Debt,	464,730,377
Total Expenditures,	\$1,192,607,945

This table shows a balance of receipts over expenditures, to June 30, 1844, of \$36,742,829.-The average annual receipts for the fifty-five years (1789 to 1844) were \$22,351,831; and the average annual expenditures \$21,683,780. The principal source of revenue has been the customs, which yielded eight, out of the twelve hundred millions received. The public lands, it will be seen, have yielded une hundred and fourteen millions. The chief source of expenditure were the military and naval establishments, the furner having cost two hundred and eighty-six millions, and the latter one hundred and seventy-nine millions of dollars. To this head, too, properly belong the Pensions, fiftyfour millions, and the bulk of the public debt .-When it is remembered that out of the fifty-five years, we have been at peace fifty-one, it will be seen that war is a pretty expensive luxury.

THE WEATHER. -Those who pretend to know what the clerk of the weather is about, say that the "Indian Summer" which we have been enjoying for some time past, will continue till about the Slat inst, and that then we may expect a change. If our fermers credit this prediction they will make she most of the present fine weather to bring in

Correspondence of the Mayaume Sendaci.

We are in this State, to-day, on the eve of an election. In the neighboring State of New Jersey t is the same case. Both choose to-morrow, and in one day, the members of their Legislatures. In New Jersey there is also an election for one member of Congress to supply the vacancy occasioned by the death of Mr. Wright, Whig, who was elected last year but had not yet taken his seat. There is not much hope of filling his place with another Whig, for the District is a close one and was only ling. carried last year by the personal popularity of Mr. Wright. The loss is therefore doubly grievous .-Moreover a Native American party has been got up, through Loco Foco agency and contrivance in Burlington, a strong Whig county, and where, as usual, Nutive Americanism can only injure the

Whige without accomplishing anything for itself. In this city, if the relative merits and qualifications of the candidates could influence the result, the Loco Foco ticket would never be heard of again. It is utterly vile-of which you will enalias Jarois, the scame who, under a false name and false pretences, endeavored to impose upon, and extract supposed secrets from Mayor Swift of Philadelphia and other good Whigs of that city in the memorable Glentworth fraud, is one of the nominees. It were too much to hope, however, in the latter. Last year the Whigs carri- so precise, that Col. Montagnae did not that even such a man shall be deemed an unfit or ed but one (the 8th) out of the eight disunworthy member of the dominant party, which falls in at the word of command and obeys the orders of its chiefs as implicitly as any other drilled and mercenary corps. Moreover the Whigs, as concerns to give much time or attention to the concerns of the country. From their apathy and the ascertained unity and activity of the Loco Focos everything is to be feared from the result. It will be an agreeable surprize if the Whigs shall present in the next Legislature any material accession to their strength in the last.

The vote in favor of a Convention to revise and remodel the Constitution will be large; both paries professing to be in favor of it, though upon opposite grounds-while many will vote, unavailing-, against it.

In New Jersey, from the apathy of the Whigs and the activity of the Loco Focos, it is not by any means sure that the ascendancy of the former will be maintained.

I had some expectation of being able to send ou to-day later accounts from Europe, as the Cunard steamer of the 19th ult. is now 15 days out. As yet, however, we have no accounts from her. There is great anxiety for each successive steamer from Europe among business men. In politics little is looked for, but prices of produce the evil and misery that a conflict between two | are eagerly sought. In bread stuffs the market continues firm, but Genesce Flour is selling at from \$5,62 to \$5,75, with a steady demand. If the harvest accounts by the next steamer be unfavorable, prices will take a start, but cannot, I think, maintain much higher rates.

I have, I believe, before expressed the opinion that we are in danger of a collision with England on the Oregon question. It seems to be the cue tent with national honor, which should secure to of the party to urge on the President to the emus the preservation of Peace, and all its attendant, ployment, in his annual message, of very positiveblessings. But to ask us to give up the Tariff as a , if not offensive language, in the assertion of our right to, and of our determination to occupy, every claim upon Oregor, is out of all reason. It would red of the Territory of Oregon, from the Mexican co Foco ticket, while the first three are rocco, and kept at bay 3000 of the troops be satisfactorily arranged, and that the be purchasing peace by an inglorious concession boundary in 42 to the Russian line in 54.45. Mr. Benton too, it is whispered, has been induced by Mr. Polk's readiness to adopt his extreme views about Oregon, to consent to support Mr. Polk's views about the Western boundary of into the New York elections. It is the cided, and rightly, to act without his con- sad. They had now, he said, a country Texas. If Mr. Calhoun shall return to the U. S. Senate with his well-known views as to the inexpediency of any immediate action on the subject of Oregon, unchanged, his influence, united to that of the Whig Senators, may avert any rush legislation. -Great Britain does not care a straw about Oregon as a mere territory—but she will not be bullied out prospect now is that the production of next year happen that the portion of the Mussulmen. all that had been promised them; but they of her claim, and although the policy of Europe is manifestly the preservation of general peace, and to England in particular the maintenance of peace is all-important, there is a settled purpose on her part not to let this country even appear to lord it over them in relation to Oregon. If, therefore, Mr. Polk's message be couched in language that seems to deny entirely the validity, or reasonableness of all Butish claims to the territory in dispute, and if it be followed in Congress by a bill to give the 12 months' notice required by the existing treaty between this country and Great Britain, and possibly by other bills for catablishing military posts and for organizing ultimately a Territorial Government beyond the Rocky Mountains; we shall, without doubt, have war with England. Is the Nation, prosperous, thriving and happy as now it is, prepared for such an event? It is time the question were generally asked and answered.

WHEAT PROSPECTS .- The past season was the best that the Farmers of Wisconsin have yet known, and the amount of wheat raised in our Territory surpassed all expectation. But the will far exceed that of the present. From what we can learn we think that double the quantity of land has been sown in wheat this fall that there was the last. The weather, too, has been most propituous, and the young grain everywhere looks strong and thrifty. It is estimated that the surplus wheat grown in Rock county during the present year was not far from half a million of bushels; and we are told that, judging from the additional quantity of land broken up and planted this fall, the surplus next year will exceed a million o bushels. Walworth county will probably turn out fear of. an equally large yield, while all the other counties in the Territory, should we be favored with a good senson, will show a handsome increase.

THE MARKETS

Orrica or validative description (Michael Nov. 15, 1845.

The weatheloace of the ag impliciting market. Prices for Wheat have advanced showly for materal days past.— To-day they jumped up two cents a bushel, 46 cents having been paid for most samples. There seems to be every promise of a steady demand and fair prices for WP throughout the winter. The following table shows about the average price of Wheat in this market during each month for the fast fifteen months.

November ... 64 December ... 64 We have made no quotations of the summer

and prices fluctuating. We hear of sales of Flour to-day at 31@31, and 31 at retail. Milwaukie offers a better market for Flour than any other point on the Lake, except, perhaps, Chicago. Racine and Southport, which do a considerable business. in purchasing Wheat, buy but bitle Pour, except what is needed for local communitum. Here, in addition to the quantity required for daily use, (which in a town of 0 cm 10,000 mhabdants counts up fast.) a targe amount in
